

Mansfield

LGA Profile

VicHealth Indicators Survey 2011 Results

This profile provides an overview of wellbeing in this LGA. It is designed to provide local governments with population health data to undertake comprehensive, evidence-based municipal public health and wellbeing planning.

Mansfield highlights*

- Residents of Mansfield Shire reported significantly greater wellbeing scores than the Victorian average (80.7 out of 100, compared with 77.5).
- Mansfield residents who purchased alcohol from licensed premises in the previous week spent significantly less money (\$26) than the Victorian average (\$45).
- Almost one-quarter of Mansfield residents (22.5%) slept for less than seven hours on an average weekday. This is significantly lower than the state average (31.5%).
- A significantly greater proportion of Mansfield residents (77.7%) shared a meal with their families at least five days a week, compared with the Victorian average (66.3%).
- Compared with the Victorian average (32.6%), residents of Mansfield were significantly less likely to spend seven hours or more sitting on an average weekday (19.5%).
- A significantly lower proportion of Mansfield residents (7.2%) reported consuming soft drink every day of the previous week, compared with the state average (12.4%).
- Most residents of Mansfield felt safe walking alone in their local area at night, with 92.0% reporting that they felt safe or very safe. This proportion is significantly higher than the state average of 70.3%.
- Mansfield residents were significantly more likely to volunteer at least once a month (52.4%) and to report some type of citizen engagement in the previous 12 months (72.1%), compared with state averages (34.3% and 50.5% respectively).

* Significance has been calculated to the 95% level of probability. Significant difference is indicated when confidence intervals for an LGA estimate do not overlap with confidence intervals for the Victorian average. Not all statistically significant results are reported as 'highlights'. See chart over page for all indicators.

Data has been weighted by age and gender within each local government area (LGA). Crude rates, also known as non-standardised rates, are shown here to help inform localised planning. Crude rates are not appropriate for comparisons between individual LGAs, as estimates have not been age-standardised and differences may be due, at least in part, to differing age profiles. Significant differences shown in this document may be partly due to differences between the age profiles of the LGA and the Victorian population as a whole. Age-standardised data is available on request†.

The Shire of Mansfield is located north-east of Melbourne and its most populous community, Mansfield, is approximately 170 kilometres from Melbourne. Mansfield Shire covers an area of roughly 3,890 square kilometres and has a population of about 7,900.

About the survey

The data comes from the VicHealth Indicators Survey 2011, which has a focus on social determinants of health. It complements other population health survey work conducted in Victoria. Data was collected through telephone interviews.

The survey was conducted in each of Victoria's 79 LGAs, with a total sample of 25,075 participants aged 18 and over.

Mansfield indicator results

The chart below shows how the indicators of health and wellbeing for this LGA compare to the Victorian average. The LGA's result is shown as a circle. Significant difference (indicated by the circle's colour) was deemed to exist when confidence intervals for an LGA estimate did not overlap with confidence intervals for the Victorian average. Crude rates, also known as non-standardised rates, have been presented here to help inform localised planning. Crude rates are not appropriate for comparison between LGAs, as estimates have not been age-standardised and therefore differences may be due, at least in part, to differing age profiles. Values are percentages unless stated otherwise.

| Indicator | % LGA | LGA estimate confidence interval | % Victoria | Victoria least favourable | Victoria Range | Victoria most favourable |
|--|-------|----------------------------------|------------|---------------------------|----------------|--------------------------|
| Wellbeing | | | | | | |
| Subjective wellbeing (range 0–100) | 80.7 | [79.2, 82.2] | 77.5 | 73.7 | | 82.5 |
| Alcohol | | | | | | |
| Purchased alcohol in the last 7 days | 44.7 | [38.0, 51.7] | 36.3 | 54.4 | | 20.7 |
| 7 day \$ spend on packaged liquor (of those purchasing) ⁺ | 37 | [31, 42] | 45 | 63 | | 24 |
| 7 day \$ spend at a licensed premises (of those purchasing) ⁺ | 26 | [20, 31] | 45 | 129 | | 13 |
| Work, life and time | | | | | | |
| Long commute (≥2 hours per day) [^] | 5.7 | [2.6, 12.1] | 11.6 | 26.2 | | 0 |
| Inadequate sleep (<7 hours per weekday) | 22.5 | [17.5, 28.5] | 31.5 | 44.1 | | 18.8 |
| Lack time for friends/family | 25.7 | [20.1, 32.3] | 27.4 | 36.2 | | 17.8 |
| Time pressure | 35.4 | [29.0, 42.3] | 41.3 | 53.8 | | 26.5 |
| Adequate work-life balance [^] | 49.4 | [40.6, 58.3] | 53.1 | 37.6 | | 69.5 |
| Healthy eating and sedentary behaviour | | | | | | |
| Shares a meal with family (≥ 5 days per week) | 77.7 | [72.0, 82.6] | 66.3 | 54.7 | | 81.1 |
| Sedentary behaviour (sitting ≥7 hours per day) | 19.5 | [14.6, 25.4] | 32.6 | 52.3 | | 15.2 |
| Daily soft drink consumption | 7.2 | [4.5, 11.1] | 12.4 | 20.5 | | 4.3 |
| Green space and safety | | | | | | |
| Visit to green space (≥ once per week) | 55.8 | [48.9, 62.6] | 50.7 | 31.4 | | 79.3 |
| Perceptions of safety - walking alone during day | 97.8 | [95.2, 99.0] | 97.0 | 89.6 | | 100 |
| Perceptions of safety - walking alone during night* | 92.0 | [88.1, 94.7] | 70.3 | 45.2 | | 95.4 |
| Community engagement | | | | | | |
| Volunteering (≥ once per month)* | 52.4 | [45.5, 59.1] | 34.3 | 22.6 | | 62.1 |
| Participation in citizen engagement (in the last year) | 72.1 | [65.7, 77.7] | 50.5 | 26.4 | | 73.3 |
| Arts and new media | | | | | | |
| Attended arts activities or events (in the last 3 months) | 68.9 | [62.4, 74.6] | 63.6 | 35.4 | | 82.6 |
| Made or created art or crafts (in the last 3 months) | 35.8 | [29.6, 42.4] | 34.9 | 20.4 | | 51.2 |
| Internet access at home | 87.8 | [83.6, 91.0] | 88.8 | 68.5 | | 96.1 |
| Social networking used to organise time with friends/family | 23.3 | [17.3, 30.4] | 35.1 | 18.8 | | 47.1 |
| Social attitudes that influence health | | | | | | |
| Community acceptance of diverse cultures | 47.1 | [40.2, 54.2] | 50.6 | 28.3 | | 78.0 |
| Prepared to intervene in a situation of domestic violence | 96.1 | [92.6, 98.0] | 93.1 | 87.9 | | 97.0 |
| Smoking policy | | | | | | |
| Support for smoking ban in outside dining areas | 64.2 | [57.1, 70.7] | 69.8 | 59.9 | | 76.8 |

Legend

- LGA value significantly more favourable than Victorian average
- LGA value significantly less favourable than Victorian average
- LGA value not significantly different from Victorian average
- Sampling variability high, use with caution (relative standard error 25–50%)
- | Victorian average
- ⁺ Reported as \$ for those purchasing this type of alcohol

- Range of results across all LGAs
- [^] Question only asked of participants who were employed
- ^{*} Cannot be compared to 2008 Victorian Population Health Survey as data was not collected in the same manner
- No data Relative standard error above 50%, estimate not reported
- Details of questions can be found at: www.vichealth.vic.gov.au/indicators
